

ADDITIONAL MATHEMATICS

International General Certificate of Secondary Education

Grade thresholds taken for Syllabus 0606 (Additional Mathematics) in the October/November 2012 examination.

	maximum mark available	minimum mark required for grade:		
		A	C	E
Component 11	80	64	26	15
Component 12	80	70	33	20
Component 13	80	58	23	8
Component 21	80	66	35	25
Component 22	80	64	28	17
Component 23	80	67	30	13

The threshold (minimum mark) for B is normally set halfway between those for Grades A and C. The threshold (minimum mark) for D is normally set halfway between those for Grades C and E. Grade A* does not exist at the level of an individual component.

The thresholds for the **syllabus** are determined first by adding together the thresholds for the components taken by the candidate. A reduction may be made at the higher grades depending on the correlation of the papers. If the maximum raw marks for the components are not in the weighting/relationship specified in the syllabus, a weighting is applied to arrive at the overall thresholds. The A* threshold is calculated using the difference between A and B as a starting point.

The maximum total mark for this syllabus is **160**.

The overall thresholds for the different grades were set as follows.

Option	Combination of components	A*	A	B	C	D	E
AX	11, 21	147	130	91	61	50	40
AY	12, 22	152	134	92	61	49	37
AZ	13, 23	143	125	84	53	37	21

Grade Thresholds are published for all GCE A/AS and IGCSE subjects where a corresponding mark scheme is available.
