

ADDITIONAL MATHEMATICS

Cambridge International General Certificate of Secondary Education

Grade thresholds taken for Syllabus 0606 (Additional Mathematics) in the October/November 2013 examination.

	maximum mark available	minimum mark required for grade:		
		A	C	E
Component 11	80	62	27	16
Component 12	80	62	27	16
Component 13	80	68	31	13
Component 21	80	67	28	16
Component 22	80	67	28	16
Component 23	80	60	33	16

The threshold (minimum mark) for B is normally set halfway between those for Grades A and C. The threshold (minimum mark) for D is normally set halfway between those for Grades C and E. Grade A* does not exist at the level of an individual component.

The thresholds for the **syllabus** are determined first by adding together the thresholds for the components taken by the candidate. A reduction may be made at the higher grades depending on the correlation of the papers. If the maximum raw marks for the components are not in the weighting/relationship specified in the syllabus, a weighting is applied to arrive at the overall thresholds. The A* threshold is calculated using the difference between A and B as a starting point.

The maximum total mark for this syllabus is **160**.

The overall thresholds for the different grades were set as follows.

Option	Combination of components	A*	A	B	C	D	E
AX	11, 21	150	129	87	55	43	32
AY	12, 22	150	129	87	55	43	32
AZ	13, 23	147	128	91	64	46	29

Grade Thresholds are published for all Cambridge International AS/A Level and Cambridge IGCSE subjects where a corresponding mark scheme is available.
